

PASHA TISHININ

BARISTA | ROASTER | TRAINER

Most of the time i teach people how to make coffee. I get great pleasure of this. I love to experiment. So i worked both behind the alcohol bar and the sommelier. Often participated in local championship as a judge. I love latte art. It seems to me that this is the discipline that absolutely everyone can understand, no matter waht experience or taste a person has. And it's very cool. I want to take a first place in all coffee disciplines. Since i worked as a roaster, bartender, sommelier for a long time, I would like to use these skills in championships
